

# IDENTITY THEFT SOLUTIONS

## CREDIT TRAFFIC FOR AUTO DEALERS

**CREDIT TRAFFIC** for Auto Dealers is a unique service that serves as BOTH a revenue source and a marketing tool. With Credit Traffic, you can give every customer 1 year of Identity Theft Protection from Identity Theft Solutions LLC (\$288 value per client) for FREE. The Dealer can give this 1 year of protection to anyone that walks into their showroom or drives into the service department.

### HERE'S HOW IT WORKS

#### CREDIT TRAFFIC AS A REVENUE GENERATOR

Our Identity Theft Protection can be added to the sticker price of every car as a Pack Item where the dealer includes our service with every car at a discounted price. The Dealer can include 5 years of protection with the purchase of every car ( \$1440 value) and charge the customer \$199 or \$299 (Dealer sets the price), which is a hefty discount of what they would pay at our website. Jamison Legal Group only charges the Dealer \$25 total per new/used car they sell per month.

#### CREDIT TRAFFIC AS A MARKETING TOOL

The Dealer can also advertise our Identity Theft Protection and give it away for 1 year to anyone that comes in for a test drive or to get their car serviced. Think about the increase in foot traffic if you sent a mailer offering 1 year of Identity Theft Protection for FREE (\$288 value) to anyone that brings their car in for service or to anyone that comes in for a test drive!

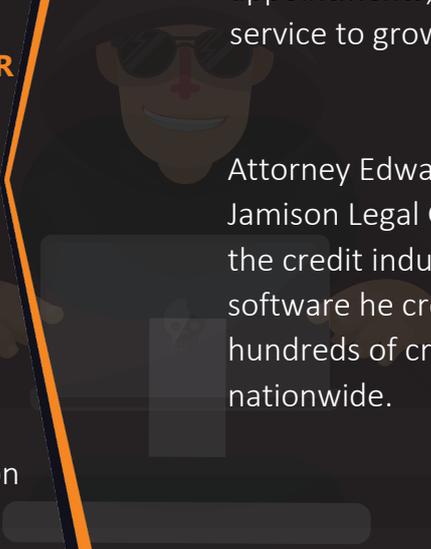

#### CREDIT TRAFFIC IS 100% PRIVACY COMPLIANT

Your Dealership doesn't have to worry about compliance when it comes to privacy concerns because our service doesn't require any personal information from your customers other than their name, email and phone number.

#### HOW MUCH DOES THIS COST THE DEALER?

Jamison Legal Group charges the Dealership \$25 per new and used car sold. It doesn't matter if you give the Identity Theft Protection to 1500 people per month that come in for service and an additional 600 per month that took a test drive. Jamison Legal Group wants you to sell more cars and increase service appointments; we want you to use this service to grow your Dealership.

Attorney Edward Jamison is the founder of Jamison Legal Group and has been a leader in the credit industry for 20 plus years. The software he created in 2005 is still used by hundreds of credit related companies nationwide.
